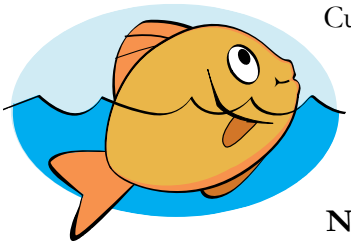
Fishing in America



Cut out the fishes into fishy shapes and slide a paper clip onto each fish's nose. Mix the fish up and spread them out on a table. Students take turn fishing a fish from the pile using a small pole and string with a magnet on the end. Students can guess the capital city of as many of the state fish that they manage to catch, keeping as many as they guess correctly. The player with the most fish wins.

Note: Spread the fish out or clump them together, mix them face-up and face-down to change the level of difficulty. Another option is to place all the fish on a table face down, eliminating the pole, and have the student draw one fish by hand.
